Management Commentary

Commenting on the 2007 results, **George Karageorgiou**, **Chief Executive Officer of Globus Maritime Limited**, said: "2007 marked a strategic milestone in the development of our company with our Initial Public Offering and the listing of our shares on AIM in June of 2007.

"This year we have expanded our fleet to a total of eight vessels, by acquiring one newbuilding and three second hand vessels, and reduced our fleet's weighted average age to 10.7 years, which is well below the industry average.

"This fleet expansion is taking place at a time of high demand and strong freight rates thereby enabling us to take advantage of the positive fundamentals of the dry bulk shipping markets. Our intention is to continue with prudent fleet expansion as the proper opportunities arise.

"We also continue with the implementation of our dividend policy, and recommend a declaration of a final dividend of GB 7.31 pence per share, representing a payout ratio of 50% of Net Income for the relevant period, namely the second half of 2007.

"We seek the generation of strong, stable and predictable cash flows by securing our vessels under time charters at the proper time, while also taking advantage of the continued market strength. As of today, 65% of our fleet days for 2008 are already secured under fixed period employment and with the remainder of our fleet as it becomes available for rechartering within 2008, we expect to achieve higher rates for these vessels than their current rates, thereby maximising our revenue and profitability.

"With our young and modern fleet, experienced management, strong customer relationships and low leverage, we believe that our company is strategically positioned to benefit from the attractive dry bulk sector fundamentals and the continued strong global demand for basic commodities around the world."

Elias Deftereos, Chief Financial Officer of Globus Maritime, added: "On December 31, 2007, our net debt to total book capitalization adjusted for the market values of the fleet was 37%, a moderate level for industry standards. We are very pleased to have secured a \$120 million revolving facility with very competitive terms from Credit Suisse which helped us pay for the "River Globe" and the "Tiara Globe" during a period of upheaval in the credit markets. Our comfortable leverage, coupled with the cash generated from operations and sufficient access to additional bank financing, enable us to pursue our fleet expansion taking advantage of the continued strength of the shipping markets.

"In accordance with our dividend policy, our next dividend payment is anticipated in September 2008 with respect to the results of the first half of 2008."

REVIEW OF THE YEAR ENDED DECEMBER 31, 2007

Fleet Expansion:

In total \$184.8 million were invested in vessel acquisitions, one newbuilding and three second hand vessels during 2007 as Globus took delivery of the following vessels:

In January: the M/V "Gulf Globe", a 1994-built 43,245 dwt Handymax vessel.

In July: the M/V "Island Globe", a 1995-built 73,119 dwt Panamax vessel.

In December: the M/V "River Globe", a newbuilding 53,500 dwt Handymax vessel.

In December: the M/V "Tiara Globe", a 1998-built 72,929 dwt Panamax vessel.

Fleet Deployment:

On December 19, 2007, the M/V "Tiara Globe" began its time charter to Korea Lines Corp at the previously-agreed gross rate of \$66,000 per day for a minimum of 24 to a maximum of 26 months.

The newbuilding M/V "River Globe" is currently trading on the spot market, fixed at \$60,000 gross per day.

The M/V "Ocean Globe" finished its time charter with Cosco at the gross rate of \$21,000 per day on 2nd February 2008 and is now trading on the spot market. Currently the vessel is fixed at \$44,000 per day.

The M/V "Lake Globe" finished its time charter with Atlas Shipping at the gross rate of \$24,000 per day on 17th February 2008 and is now trading on the spot market. Currently the vessel is fixed at \$50,000 per day.

The current charter coverage for 2008 and 2009 is 65% and 25% of the available days respectively.

Review of Results for the Full Year Ended December 31, 2007

Revenues, EBITDA, Net Income:

As a result of the increase in prevailing time charter rates and the increase in the number of vessels in the Company's fleet, Net Revenues during 2007 reached \$38.7 million. This figure includes, among others, the "Sea Globe" which started its time charter with Cosco at the gross rate of \$22,000 per day (39.7% higher that the previous T/C rate) on June 19, 2007, the "Island Globe" which started its time charter with Norden on July 10, 2007 at the gross rate of \$30,000 per day, the "Tiara Globe" which started its time charter with Korea Lines Corp. on December 19, 2007 at the gross rate of \$66,000 per day, and the "River Globe" which was chartered for a short period at the gross rate of \$46,000 per day following its delivery in December 2007.

During 2007, the vessels were employed at an average TCE rate of \$19,702 per vessel per day, as compared to an average TCE rate of \$18,105 per vessel per day in 2006.

EBITDA for 2007 reached \$28 million versus \$3.3 million in 2006.

Net income for 2007 reached \$12 million compared to US\$ 1 million during 2006.

Vessel Operating Expenses:

Vessel Operating Expenses in Q4-07 reached \$2.4 million. There were 580 ownership days in Q4-07, giving an average Operating Expense figure of \$4,167 per vessel per day.

In the \$2.4 million figure for Operating Expenses in Q4-07 however, the Company expensed an amount of approximately \$125,000 related to initial supplies for the vessels "River Globe" and "Tiara Globe", which were both delivered to the Company on December 18, 2007. Since these initial supplies were not all consumed in the 14 days up to December 31, 2007, a more accurate figure for the average Operating Expenses for Q4-07 would be \$3,952 per vessel per day.

Vessel Operating Expenses for the full year 2007 reached \$7.6 million, vs. \$1.1 million in 2006. This increase is attributable to the increase in the size as well as the change in the composition of the fleet into Handymax and Panamax vessels. In addition the increase is due to higher crew costs, higher prices for lubricants, and the strengthening of the Euro. The Company's Operating Expense's breakdown was as follows: Crew expenses 48%, Stores and Lubricants 22%, Spares and repairs 16%, while Insurances 10%.

There were 2,017 ownership days in 2007, giving an average Operating Expense figure of \$3,787 per vessel per day.

General and Administrative Expenses:

General and Administrative expenses during Q4-07 were \$1.6 million. There were 580 ownership days in Q4-07, giving an average Admin Costs figure of \$2,742 per vessel per day. In the \$1.6 million however, the Company has expensed the Bonus given to personnel for the year that amounts to \$873,000. There were no provisions made during the earlier quarters of 2007 against this figure, whereas this will be done for each quarter going forward. By excluding the Bonus, the average Admin Costs for Q4-07 drops to \$1,236 per vessel per day, in line with Q3-07 (\$1,257).

For the full year 2007, the General and Administrative expenses, including the Bonus, came to \$3 million, or \$1,512 per vessel per day.

Operating Highlights:

The Company had a total of 2,017 ownership days during 2007 and operating days were 1,837 days. The 180 scheduled and unexpected offhire days were a result of

- 1. the M/V "Ocean Globe" underwent repairs during 123 days after the grounding in Q1-07;
- 2. the M/V "Gulf Globe" completed the scheduled dry-docking during the first half of the year;
- 3. the vessels M/V "Lake Globe" and M/V "Coral Globe" completed their scheduled dry-dockings during the second half of 2007.

Depreciation and Dry Dock Amortization Expenses:

Depreciation of fixed assets reached \$10.2 million during the period under review. The Company continues with their policy to depreciate the vessels over a useful life of 25 years, on a straight line basis down to scrap value calculated at their lightweight at \$200 per tonne.

Dry Dock Amortization reached \$1 million in 2007. The vessels M/V "Gulf Globe" and M/V "Ocean Globe" completed their intermediate surveys (dry-dockings) during the first half of the year while the vessels M/V "Lake Globe" and M/V "Coral Globe" during the second half of 2007.

The M/V "Island Globe" and the M/V "Tiara Globe" are scheduled for dry-docking in the first half of 2008.

Interest and Finance Expenses:

Interest and Finance expenses increased to \$5.6 million in 2007 versus \$0.9 million in 2006. In Q4-07 the Company arranged and drew down \$115 million from its new bank facility with Credit Suisse to finance the acquisition of the "Tiara Globe" and the "River Globe".

In accordance with the Company's accelerated debt repayment schedule, \$15.1 million of bank debt were repaid in 2007.

Other Capital Resources

Globus' shares were admitted for trading on the AIM of the London Stock Exchange on June 6, 2007 following the IPO of 8,423,333 new ordinary shares at GB 300 pence per share, raising a gross amount of GBP25.27 million, or \$50 million. After payment of IPO related costs, the Company received the net amount of \$46.6 million. From these funds, \$34.1 million were paid on July 9, 2007 when the M/V "Island Globe" was delivered and \$11.4 million were paid on July 18, 2007, as deposit for the newbuilding Handymax vessel, which was named M/V "River Globe" upon delivery in December.

Dividends:

In implementation of Globus' dividend policy to distribute minimum 50% of Net Income, and subject to Shareholder approval, the Directors recommend a final dividend of GB 7.31 pence per share, or a final payout of GBP 2 million (\$4.1 million), which is based on the Net Income for the second half of 2007. The final dividend payment is expected to be approved by the shareholders in the AGM which the Board will recommend to be held on May 7, 2008 and will then be payable on May 9, 2008 to shareholders on record as of April 11, 2008. The ex-dividend date is April 9, 2008.

Together with the interim dividend of GB 1.44 pence per share which was based on the net income for the single month of June 2007, the only month during the first half of 2007 that Globus operated as a public company, and which was paid in September 2007, Globus' total dividend for the seven month period from June 1, 2007 to December 31, 2007 that Globus was a public company will be GB 8.75 pence per share.

Prior to Admission on AIM, on May 31, 2007, the Company declared an extraordinary interim dividend in the aggregate amount of US\$ 2.1 million (approx \$10.4 cents per share). This was paid on September 24, 2007 to the shareholders on record as of May 31, 2007.
